

Thassos White marble

Material Presentation

Technical Specifications | CE

Technical Specifications	
Mineralogical Composition	
Calcite	4 % w
Dolomite	95 % w
Quartz	
Physical Mechanical Properties	
Apparent Specific Weight	2840,00 kg
Absorption Coefficient	0,15 %wt
Compressive Strength (dry c.)	113,00 MPa
Modulus of Rupture (dry c.)	16,00 MPa
Abrasion Resistance	3,33 mm

The Quarry

Thassos North / Rahoni

Size: **48629,50 m²**

Capacity: **2431475 m³**

Status: **Full working**

Material: **Thassos White Marble**

Thassos White Marble | Quarry

- Located on the island of Thassos (Rahoni), in Northern Greece.

- Extraction started in 2014.

- Size: **48629,50 m²**

- Annual production capacity: **2431475 m³**

- Milestone Greece currently controls 100% of the distribution of Thassos White Marble.

Applications

Mosque of Amr Ibn El-Aas, Egypt

Alem Entertainment Center, Ashgabat, Turkmenistan
